

D415 BRAKE CLEANER

Description

Highly volatile, fast drying degreaser designed to remove dust, oils and greases from automotive components.

Areas of use

On all functional automotive brake components.

Can also be used to clean clutch assemblies, including callipers, disc plates etc as well as general degreasing of other metallic components.

As this product is based solely on a very fast evaporating aliphatic hydrocarbon it is also safe for use on most plastic and rubber components.

Benefits

Dissolves and removes brake fluid, grease, oil and dust

Cleans brake and clutch parts without the need for dismantling.

Eliminates brake squeal.

Powerful spray, fast evaporating formula.

Eliminates clutch slip caused by contaminated products.

Typical Product Data

Appearance	Liquid
Colour	Clear
Odour	Citrus
Flash Point	<0c
Auto Ignition temp	>200c
Evaporation Rate	2.8 (Ether = 1)

Application Details

Place a drip tray underneath the work area.

Spray liberally onto the surface to be treated and allow contaminated liquid to drain into the tray.

Agitation with a brush will assist in the removal of heavy or stubborn contamination.

Flush spray until all contamination has been removed and wipe away contaminated cleaner with a soft absorbent cloth.

Always test brake operation after cleaning.

Always dispose of contaminated materials in a sealable bin to prevent risk of fire.
